

HEADTEACHER'S UPDATE

SPECIAL EXAM RESULTS EDITION

Welcome to a special exam results edition of our school newsletter, and the first with a 'respray'. Once again, we are delighted with how our students performed. We hope that this celebrates the success of our students and motivates our next cohort to work hard and aim high.

smiles, with many students delighted with their outcomes.

Including English and Maths, 88% of students achieved Grades 9-4, compared with a national average of 67.8%. 9-5 results stand at 74.4%, currently with no national comparison. 26% of students achieved grade 7+, and 46% of students gained grades 9-7 in their GCSEs.

History, Drama, Physics, Chemistry, Biology, Spanish, English Literature and Maths results stood out as being particularly impressive.

Year 11 KS4 Results

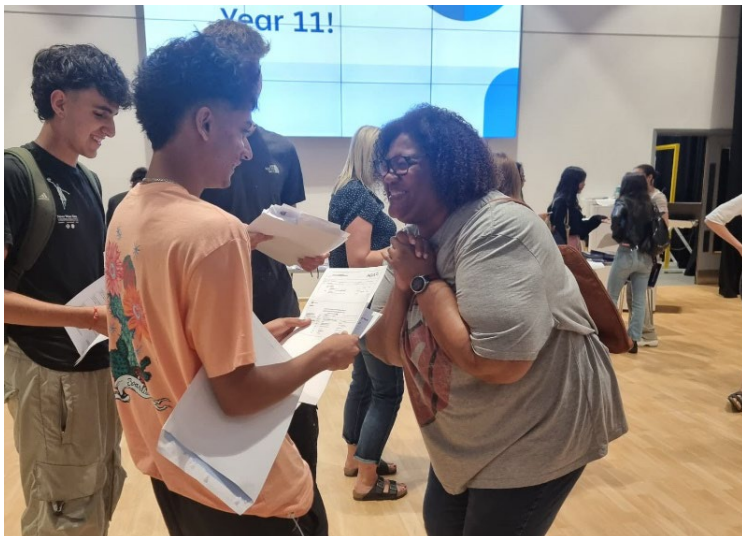

It was lovely to see most of our students arrive to collect their results and thank you to all the families that managed to come in and support their children. There were lots of shaky hands at first, resulting in some terrible envelope opening, but then lots of

Individual students performed well, with Joe gaining a clean sweep of Grade 9s - we couldn't persuade him to let us take a picture though! Well done to the following students who all gained results that averaged a Grade 7 or above: Kaiden, Zach, Lukas, Arun, Adam, Ben, Michael, Sasha, Zac, Daniel, Luca, Nicholas,

Sami, Sakurako, Maria, Yannis, Amelia, Tom, Rhiya, Taran, Leo, Archie, Casper, Henry, Leona, Katie, Barnaby, Alex, Harry, Salim, and Seth.

We were also really pleased to see a huge number of students making excellent progress against their targets, with Nick, Taran and Saku leading the way. Taran told us: 'I was feeling really nervous prior to arriving at school, especially when queuing up. However, when I got my results, I felt shocked as I couldn't believe it. I was really happy with my results, and I know a lot of people were too!' The following students achieved had excellent results as well: Salim, Leo, Ethan, Katie, Josh, Lukas, Amelia, Rhys, Liam, Kaiden, Archie, Katie, Abby, Abbie, Riley, Freya, Zac, Virginia, Serine, Marley, Yannis, Josh, Zach, Eva, Evie, Arun, Michael, Luca, Giacomo, Molly, Tilly, Elliot, Ned, Alec, Tom, Rohan, Luke, Ben, Lola, Lucy Alice, Maria, Tom, Rhiya, and Noah.

It feels important to acknowledge that regardless of whether grades are the very highest ones possible, every student who worked hard should feel remarkably proud of their achievements, as we certainly are!

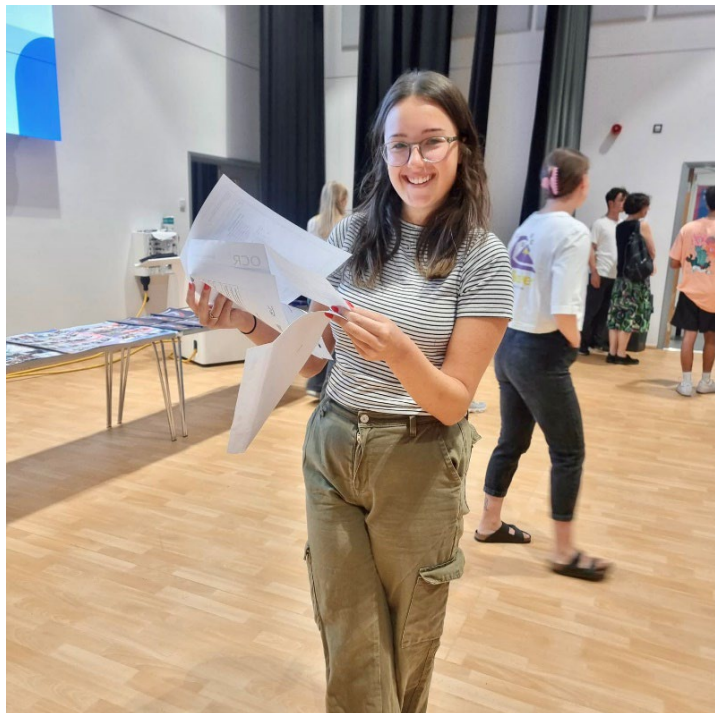

Some lovely comments from our Year 11 parents (that we were very grateful to receive) included: "Thank you so much for the support you have given us this year. We are really pleased with the results, and some are really above our expectations. But beside the results, the care given was great to have from the Head of Year and the rest of the team."

"Your efforts with our daughter really paid off and thank you for all your support. It's been a real learning curve which I hope will benefit her with preparation for A-Levels."

"Thank you all for your great leadership and teaching style. Your efforts and chosen career paths do not go unnoticed."

Overall, we are very pleased with how our students did, especially considering the impact of Covid-19 on this year group. They were also the first students on our Hampton site and, with our site move, experienced huge change in their secondary education. We can confidently say that they have also shown great resilience.

Year 10 KS4 Results

We also had another successful year for our early entry RP GCSE for Year 10. We saw the following headline figures: 81% of the cohort gained a good pass, 74% gaining a strong pass and 42% gained grades 9-7, of which 10% were Grade 9. Results were above the national averages which is always pleasing, considering our students take this qualification a year early. Well done to Darcey, Zeph, Jackie, Yusuf, Landen Finn, Maria, Mia, Eashan, Lucas, Anoushka and Kerem for their outstanding Grade 9s. 83 students out of 125 exceeded or matched their target grades which is simply wonderful. Let's hope all students see this as a platform to do even better in Year 11!

Year 13 KS5 Results

When considering our Sixth Form results, firstly we have to say a goodbye to our final founding student, who remained with us for an additional year and secured his place at Corpus Christi College at the University of Cambridge to study History and Politics. Having a student who

leaves Turing House with 4 A* grades is amazing. However, he wasn't the only one! Massive congratulations to Kai who also leaves us with 4 A* grades. Jacob, Lilu, Jay, Tom D, Ayni and Charlie all gained a clean sweep of A* and/or A grades too. We were also very impressed by Adam, Hugo, Isaac, Marwan, Tom P, Sam, Spike, Jake, Ryan and Zoe who all averaged a B grade and had A grades in their profiles.

Overall, 20.9% of students gained grades A*-A grades, 46% gained A*-B and 71% gained grades A*-C. Maths and History were the highest performing subjects, with History's lowest grade being a B!

Particularly impressive were the grades of the students on our Special Educational Needs register who gained the following spread of grades: ACC, BCD, ABC, BBB, BBC.

Overall, we are very pleased with these results. Students are leaving us with solid outcomes and as confident learners. It is also impressive considering how young our Sixth Form is.

Most students gained their first-choice university, and we wish them the best of luck at the huge range of institutions listed below:

- University of Brighton
- University of West London
- The University of Edinburgh
- University of Plymouth
- Kingston University
- London South Bank University
- University of Leeds
- Loughborough University
- University of Sheffield
- University of Manchester
- University of Reading
- Loughborough University
- UCL (University College London)
- University of Reading
- Bournemouth University
- University of Brighton
- University of York
- University of Chichester
- UCL (University College London)
- University of Cambridge
- University of York
- Swansea University
- University of York
- Bournemouth University
- Oxford Brookes University
- University of Kent
- Royal Holloway, University of London
- University of York
- University of Bath
- Bournemouth University
- Bournemouth University
- Nottingham Trent University
- University of Southampton
- University of Birmingham
- Royal Holloway, University of London
- Oxford Brookes University
- St Mary's

And on the following exciting courses (for which students have had acceptances):

- Electrical and Electronic Engineering
- Business Studies with Digital Marketing
- History
- Mechanical Engineering with Foundation Year
- Business Management with Professional Placement Year
- Chiropractic (with Foundation Year)
- International History and Politics
- History (with placement year)
- Mechanical Engineering with an Industrial Placement Year
- Politics and Modern History
- Geography and Economics (Regional Science)
- Mathematics with Statistics
- Medicine (6 years)
- Pharmacy
- Marketing
- Graphic Design
- Physics with Astrophysics
- Sports Therapy
- Crime and Security Science

- History and Politics
- Criminology
- Philosophy, Politics and Economics
- History
- Accounting & Finance
- Computing Foundation
- Business and Management with a year in Industry
- Mathematics and Physics
- Psychology
- Aerospace Engineering
- Business & Management
- Ecology and Wildlife Conservation
- Sport and Exercise Science
- Criminology
- History and Politics
- History
- Criminology and Law

A couple of students are heading abroad, a couple are taking gap years, and a couple are starting their own businesses! We wish all this cohort the very best with their future endeavours. They will be sorely missed.

To finish with a quote from Sean: "At one point, I discussed about leaving Turing house and if there were any alternatives. And oh my, am I happy that I stayed, because now I can finally go and do what I've always wanted to do. And you guys made that happen. I know you have opened doors to hundreds of children, but I want to say out loud that I am one of those people and I could not thank you and the rest of Turing house enough!

I'm happy and assured that I will always have my second family to fall back on when I'm in need of help or advice, I will forever be a Turing house student."
