Results Days 2024

The anticipation of the external results built as the moment of truth approached for our students and staff. Each year, a select few staff receive the results a day early, giving us the chance to delve into the data, ready to celebrate triumphs and extend support where it's needed most. For some students, these results are just another milestone on their educational path; for others, they hold the potential to transform their lives.

As always, I was delighted and thankful for the number of staff who came in to support both the process and the students on the day.

Year 13

On the 15th August we welcomed our Year 13 students to collect their A level and Cambridge Technical results. I am delighted to say that once again our students did the school incredibly proud.

Our A*-A results were up on last year with 32.4% of students gaining those very best grades. A*-C came in at 77.6% - again exceeding last year's performance.

Our average grade has risen to a grade B. Students with Special Educational Needs excelled. In our vocational course, 83.3% of students gained either a Distinction or a Distinction*.

'Success is no accident. It is hard work, perseverance, learning, studying, sacrifice and most of all, love of what you are doing or learning to do.'

17 students gained all A grades with two students gaining all A* or better. Here are some highlights:

Please make sure you pass on your experiences to parents/carers of children in younger year groups of the things you have done to ensure your children have been successful. As always, it is a team effort.

Final Thoughts

I was told recently of a younger student who visited the house of a friend in Year 11 during the lead-up to the exams. This Year 11 student of their own admission, had not always been the most diligent in school but had made a conscious decision to be more focused and start working hard. His bedroom was a mass of revision notes and books. Today, it was truly heartwarming to watch this same Year 11 student receive his results. Upon opening them, he was so stunned by the grades that at first, he thought we had given him the wrong envelope!

Students who work hard reap the rewards. For those in lower year groups reading this special edition of our newsletter, please start next year with a 'can do' attitude and work hard. It's the only job you have as a student; make it count.
